1- Для обработки файлов в Markdown вам необходимо скачать Pandoc и Pandoc-crossref.

The screenshot shows the GitHub release page for the repository `lierdakil/pandoc-crossref`. The browser address bar displays `https://github.com/lierdakil/pandoc-crossref/releases/tag/v0.3.17.0c`. The repository name is shown as `lierdakil / pandoc-crossref`. The navigation bar includes links for `Code`, `Issues` (83), `Pull requests` (1), `Actions`, `Projects`, `Wiki`, `Security`, and `Insights`. The release section is titled `v0.3.17.0c` with a `Latest` badge. A `Compare` button is visible. Below the release title, it states: `github-actions released this last month` with a commit hash `v0.3.17.0c` and a commit hash `a428e2d`. The release description lists the build details for Linux, Windows, and macOS, all built with Pandoc v3.1.11.1, pandoc-types v1.23.1, and GHC 9.6.4. The commit hash `a428e2d` is repeated for each platform. A `Changelog` link is provided at the bottom of the release section.

**v0.3.17.0c** Latest Compare

 github-actions released this last month  v0.3.17.0c  a428e2d

Linux: pandoc-crossref v0.3.17.0 git commit [a428e2d](#) (HEAD) built with Pandoc v3.1.11.1, pandoc-types v1.23.1 and GHC 9.6.4  
Windows: pandoc-crossref v0.3.17.0 git commit [a428e2d](#) (HEAD) built with Pandoc v3.1.11.1, pandoc-types v1.23.1 and GHC 9.6.4  
macOS: pandoc-crossref v0.3.17.0 git commit [a428e2d](#) (HEAD) built with Pandoc v3.1.11.1, pandoc-types v1.23.1 and GHC 9.6.4
